

Shades of brilliance!

The new dimmable OSRAM SOFTLITE® DIM

SEE THE WORLD IN A NEW LIGHT

OSRAM

Dimmable delight

At last there's a dimmable version. The innovative OSRAM SOFTLITE® DIM wall and ceiling luminaire is renowned for its aesthetic design and will blend beautifully with almost any modern indoor architecture.

The mixture of direct and indirect light ensures that the light is pleasant, soft and glare-free.

Total comfort

The benefits include greater lighting comfort, better economy and improved reliability. OSRAM SOFTLITE® DIM is operated with a high-intensity FQ® fluorescent lamp and modern QUICKTRONIC® QT-FQ electronic control gear which can be dimmed via a 1–10 V interface.

For homes and offices

OSRAM SOFTLITE® DIM will meet the most demanding requirements. It can be used for example

- to provide impressive wall lighting
- in doctors' waiting rooms, reception areas in professional practices, and so on
- in offices and presentation rooms

Durable quality and simple operation

OSRAM SOFTLITE® DIM is synonymous with quality. The lamp, luminaire and ECG all come from the same manufacturer and are therefore perfectly matched. They share the same high-quality workmanship, robustness, durability and ease of installation.

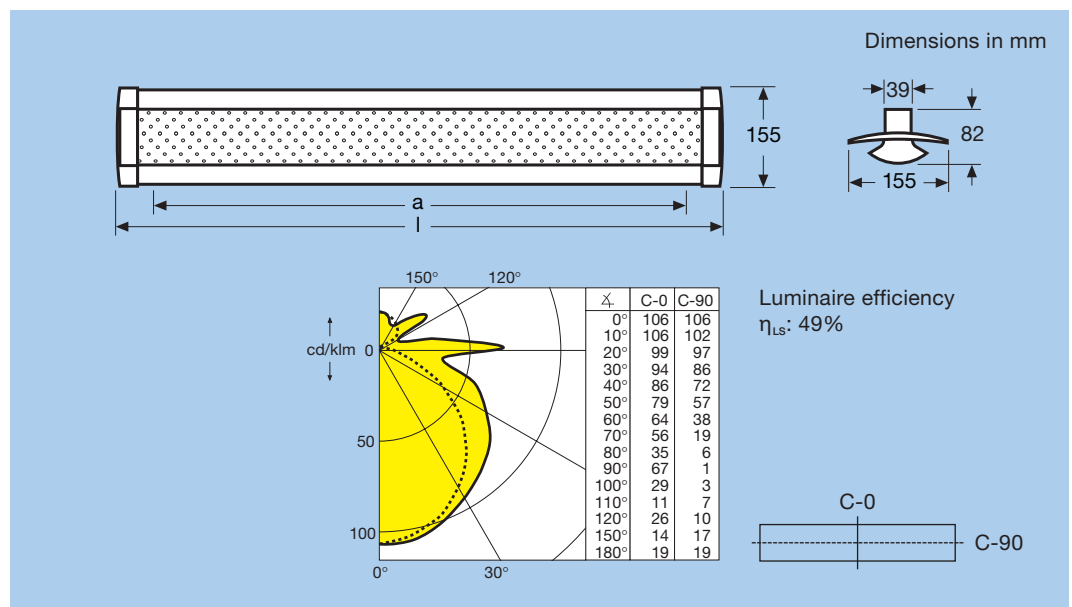

The power cable can be connected at the side or back.

An excellent pedigree:

OSRAM SOFTLITE® with a T8 fluorescent lamp and OSRAM SOFTLITE® EL with an FQ® fluorescent lamp and electronic control gear.

Technical data

OSRAM SOFTLITE® DIM	24 W	39 W	54 W	80 W
