

We are here for you 24 hours a day: www.osram.com

OSRAM's new internet presence: by professionals for professionals.

OSRAM has revamped its internet presence to make it even more attractive and practical. It now addresses the specific needs of the relevant target groups. This is the quick and easy way to get all the information you are looking for.

On the back we have put together some brief descriptions and links for topics that you are sure to find particularly interesting:

- LEDs
- Download Center
- Product Training
- Case Studies
- Global Care

These are just some of the areas covered on the new OSRAM internet site. Take a look yourself. You'll be pleasantly surprised.

A little light training: **Product Training.**

The modular Online Training Program can be accessed at any time. It is the simple time-saving way to obtain concentrated knowledge about products and technologies – and at the end of the program you can print out your own certificate.

→ www.osram.com/ptp

Lighting a new way forward: **LEDs.**

The LED section has also been restructured and improved. There are now various links that will take you directly where you want to go. For example:

LED Module Quickfinder:

All the LED modules sorted by applications and product characteristics. With all the product features, technical specifications and EULUMDATA.

→ www.osram.com/led-systems

LED-deSIGNer:

Useful online tool for signage and backlighting that helps select the right LED modules and can calculate the quantity of products for a particular design.

→ www.osram.com/led-designer

All the latest information: **Download Center.**

Brochures, data sheets, manuals and customer newsletters. Here you can easily download the latest information on OSRAM and our products at any time.

→ www.osram.com/downloads

An eye on the future: **Global Care.**

The future belongs to those who act responsibly in the present. Here you will find information on OSRAM's activities relating to sustainability and environmental protection, together with extracts from relevant directives.

→ www.osram.com/global-care

Inspire and be inspired: **Case Studies.**

Here, sorted by region, application or year of production, you will find some outstanding reference systems that we have successfully completed throughout the world: all the partners and products, technical solutions, details, designs and construction. Be inspired and inspire others by describing your own projects – and advertise yourself at the same time.
