

1.05 OSRAM GmbH, CS CC, 81536 Munich

Guaranteed sunny days. Around the clock.

The perfect light source for optimal growth. Microchips flourish better in the intense and steady UV-light emitted by OSRAM HBO®-lamps. They shine reliably to keep your stepper and scanner continuously working all day and night. Not only our lamps work without down times, please feel free to contact us around the clock: infoline@osram.de

SEE THE WORLD IN A NEW LIGHT
