- Pre-wired with flex and plug for quick installation

## OSRAM SHOPSTAR Metal Halide Downlights

A quality range of metal halide Downlights providing perfect lighting solutions for a wide range of shoplighting applications. The luminaires are manufactured from pre-treated die-cast aluminium that is powder coated for durability and protection. The SHOPSTAR range uses the reliable European quality POWERTRONIC® electronic control gear as well as the popular HQI-TS OSRAM double ended metal halide lamps. All kits come complete with pre-wired flex and plug for quick effortless installation.
